**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 6 is rejected under 35 U.S.C. 102(b) as being anticipated by Tanaka et al. (U.S. Patent 5,239,735).

Tanaka et al. disclose an apparatus for forming elongated alternately slit segments in deformable strip comprising a pair of opposed rolls (10,10) each having a plurality of spaced discs having opposite side walls and circumferential, equally spaced, convexly shaped tool surfaces (2) alternating with substantially flat surfaces, said discs having radial notches (3) formed in the opposite sidewalls of alternate circumferential flat surfaces, whereby peripheral surfaces of opposing rolls are adapted to interact on deformable strip passing therebetween to slit and form convex segments and alternate nodes in said strip by intermeshing of said shaped tool surfaces (Figs. 1-4; col.5, line 23-col.6, line 31).

***Allowable Subject Matter***

3. Claims 7 and 8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
